

# ICSCEE 2024

THE 3<sup>RD</sup> INTERNATIONAL CONFERENCE ON SMART COMPUTING AND ELECTRONIC ENTERPRISE

November 21<sup>st</sup> - 22<sup>nd</sup> 2024  
Kuala Lumpur, Malaysia

## About the Conference

Smart computing is all about using really clever computer techniques to make systems, apps, and services that people need. In the world of electronic businesses, we're working on making things more organized and complex by blending business strategies with computer systems. This helps us make new apps and services, while also making the ones we already have work better. When it comes to big data, we're dealing with really huge amounts of information that normal software can't handle on its own. That's why the Third International Conference on Smart Computing and Electronic Enterprise (ICSCEE2024) is happening. It's for researchers who are into making smart computer stuff and improving electronic businesses. The conference will be both physically and online so that everyone can join in.

## Integration of Smart Computing, Artificial Intelligence, Big Data, and Electronic Enterprise

### Conference theme :

Advancing Digital Enterprises through Smart Computing and AI Innovations

### Organizer :

Faculty of Computer and Information Technology (FCIT), Al - Madinah International University – Malaysia

### Patron of the Conference :

The Honourable CEO of Al-Madinah International University,  
Dr. Abdullah Bin Saad Alarefi

### Conference Chairman :

Asst. Prof. Ts. Dr. Ammar Bathich  
Dean, Faculty Of Computer And Information Technology (FCIT)

### Venue :

Al-Madinah International University, Kuala Lumpur - Malaysia

### Conference Languages :

Arabic, English, and Malay

## Conference Objectives

The objectives of the 3rd International Conference on Smart Computing and Electronic Enterprise (ICSCEE2024) are:

- Advance Research in Smart Computing: Foster the exchange of knowledge and ideas among researchers engaged in both theoretical and practical aspects of smart computing. Encourage the exploration of future paradigms, models, and algorithms in smart computing

- Address Challenges in Electronic Enterprise: Provide a platform for addressing challenges in electronic enterprise by integrating advanced computational methods and technologies. Focus on evolving enterprise complexity, business strategies, and standardized IT architectures to meet societal needs.
- Explore Big Data Solutions: Discuss and explore techniques, models, algorithms, and applications to tackle challenges posed by big data. Emphasize the analysis and management of large and complex datasets that exceed the capabilities of current software.
- Address Security Concerns: Discuss cybersecurity challenges and solutions, including cyber hacking, digital forensics, cyber threat intelligence, and smart networking models. Highlight the importance of securing smart computing systems and electronic enterprise infrastructure.
- Promote Innovation and Development: Encourage innovation and development in areas such as artificial intelligence, sensor networks, cloud computing, and software agents. Explore emerging trends and opportunities in smart computing and electronic enterprise.
- Facilitate Knowledge Exchange: Provide a platform for researchers to disseminate their findings, share experiences, and build collaborations. Foster networking opportunities and promote the exchange of ideas through virtual conference sessions and presentations.

## Conference Areas

Researchers are invited to contribute to the conference by submitting articles in the following areas, but are not limited to the following topics:

### Smart Computing:

- Future Smart Computing Paradigms and Models
- Algorithms of Smart Environments
- Cloud and Grid Computing
- Smart Networking Models
- Smart Device Hardware
- Cyber Hacking
- Digital Forensics
- Sensor Network Application and Security
- GIS Applications
- Optical Communications
- Signal, Image and Video Processing
- Decision Support Systems
- Artificial Intelligence Techniques, Algorithms, and Applications.
- Social Engineering
- Cyber Threat Intelligence
- Intelligent Heterogeneous Architecture
- Smart Human-Computer Interaction
- Software Agents and Internet Computing
- Software Engineering

### Big Data:

- Techniques, Models, Algorithms, and Applications for Big Data
- Databases and Information Systems Integration
- Big Data Visualization
- Big Data Analysis

### Electronic Enterprise:

- Electronic Information Systems
- Electronic Enterprise Models and Applications
- Enterprise Knowledge Engineering and Management
- Enterprise Architecture
- Electrical Circuits and Devices
- Microelectronics and Computer Technology
- Communications and Information Processing
- Electrical Engineering Communications
- Signal Processing
- Measurements Technology
- Material Engineering
- Microwave and Electronic System Engineering
- Microelectronics and Optoelectronics
- Systems and Control Engineering
- Bioelectronics
- Power Electronics and Energy Systems
- Optical Communications

## Conference Track Chairs

Smart Computing Track Chair	Assoc. Prof. Dr. Yazeed Al Moayed
Big Data Track Chair	Assoc. Prof. Ts. Dr. Ammar Bathich
Electronic Enterprise Track Chair	Assoc. Prof. Dr. Najeeb A. Al-Sammarraie

## Important Dates

Call for papers	1 <sup>st</sup> May 2024
Last date of abstract submission	30 <sup>th</sup> July 2024
Last date of abstract acceptance notice	15 <sup>th</sup> Aug 2024
Last date of full paper submission	15 <sup>th</sup> Oct 2024
Last date for paper acceptance notice	20 <sup>th</sup> Oct 2024
Early bird registration deadline	1 <sup>st</sup> June 2024
Registration deadline	20 <sup>th</sup> Nov 2024
Conference date	21 <sup>st</sup> – 22 <sup>nd</sup> Nov 2024
Online System Ready due	30 <sup>th</sup> Oct 2024

*\*The dates above are subject to change according to the conference Supreme Committee*

## Registration Fee

Participant type	Participation fee
Participants with a paper from inside and outside Malaysia - physical attendance	200 USD

Participants with a paper from inside and outside Malaysia – online attendance 150 USD

Professors / Students participating with papers (without publication fee) from Al-Madinah International University 50 USD

Professors / Students participating without papers from Al-Madinah International University 10 USD

### The registration fee includes:

- Participation certificate.
- Conference abstracts booklet.
- Publishing the scientific record of the conference in indexing digital books (Digital Book Index)
- Conference bag.
- Meals during the conference.
- Publication in Al-Madinah International University Journals

*\*Note: The conference organizer does not bear the expenses of accommodation, travel and transportation.*

Conference payment can be made by [senangPay](#)  
Click here:

### Important Notice :

Please submit a scanned or photographed copy of your registration payment receipt to the conference email. Make sure that the receipt contains your name and identification details, such as your student matric number or passport number. Additionally, write the conference name in English on the payment receipt for reference by the finance division.
